# COOLBOOK 6.1

100% Made in Italy

*Your guide to Environmentally  
Friendly Refrigeration Products*

## The Real Made in Italy

Desmon S.p.A was founded in 1994 by the family De Santis as a food equipment trading company.

**100%**  
Made in Italy

In 1998 the company has taken over a local manufacturing company and started production of refrigeration equipment. After a few successful years the company became one of the leaders in the European market of professional refrigeration.

DESMON S.p.A. from 2015 is part of the Middleby Corporation, a leading global provider of Food Service Equipment.

100% of the production of professional refrigeration equipment is concentrated in the main factories in Italy.

## Who prefers Desmon...

... is conscious to do the best choice in the professional refrigeration field. Desmon's primary objective is to maintain high quality standards and to achieve full customer satisfaction.

Those who choose Desmon know that they obtain a huge selection of products produced by the superior ability of Desmon workers, from the body to the smallest detail.

Those who choose Desmon know that they have a product built to last, and day after day will appreciate the material quality, the reliability in technology and its enhanced design.

## Il Vero Made in Italy

Desmon S.p.A è stata fondata dalla famiglia De Santis nel 1994, come azienda per la commercializzazione di attrezzature per il catering.

Nel 1998, Desmon rileva un marchio storico della refrigerazione professionale avviando la produzione di frigoriferi professionali a marchio proprio. In pochi anni Desmon diventa un punto di riferimento europeo nella produzione di attrezzature refrigerate per il catering.

DESMON S.p.A. dal 2015 fa parte del gruppo Middleby, azienda leader a livello mondiale nel settore del Food Service Equipment.

**Il 100%** delle attrezzature refrigerate prodotte da Desmon vengono realizzate nei due opifici di circa 25.000mq interamente coperti siti in Nusco (AV).

## Chi sceglie Desmon...

... è consapevole di fare la scelta migliore nel campo della refrigerazione professionale.

Obiettivo primario della Desmon è quello di mantenere alti gli standard qualitativi e raggiungere la piena soddisfazione dei propri clienti.

Chi sceglie Desmon sa di poter attingere ad una vastissima gamma di prodotti realizzati interamente dalla sapiente mano degli uomini Desmon, dalla scocca al più piccolo particolare..

Chi ha scelto Desmon sa di avere un prodotto creato per durare nel tempo, apprezzandone giorno dopo giorno la qualità dei materiali, l'affidabilissima tecnologia ed il Design sobrio e sempre attuale.

## Superior Materials

Every product is produced with the greatest care for the details. Desmon's primary objective is to produce the highest quality products, for this reason it chooses only high quality materials, to ensure that the Desmon products last a long time regardless of the application.

It's for this reason that Desmon uses only stainless steel of superior quality. All internal and external structures are stainless steel, such as the doors, the adjustable pedestals and the table and cabinet handles.

All Desmon models present tropicalized refrigerating units. Other characteristics of our products are the strength and the high reliability that can guarantee the right functionality even if exposed to excessive usage in an "unfriendly environment".

## Materiali Superiori

Ogni prodotto è realizzato con la massima cura per i particolari; Desmon ha come obiettivo primario la qualità dei propri prodotti, per questo sceglie unicamente materiali di standard elevatissimo, in modo da far durare e mantenere inalterati nel tempo i propri prodotti.

È per questo che Desmon usa solo acciai di qualità superiore. Le strutture interne ed esterne sono in acciaio inox, come le porte, i regolabili e le impugnature sia dei tavoli che degli armadi.

Tutti i modelli Desmon sono dotati di serie di unità refrigeranti tropicalizzate. Ulteriori caratteristiche dei nostri prodotti sono la robustezza e l'alta affidabilità capaci di garantire la buona funzionalità dei prodotti anche se sottoposti ad un uso esasperato.

## Certified Quality

We believe that every process designed to control production and make information objective and available improves the relationship with our customers, both the internal and external ones. It's this transparency that controls our job.

## Qualità Certificata

Crediamo che ogni processo tendente ad rendere controllata, oggettiva e fruibile l'informazione, migliori la relationship con i nostri clienti, interni ed esterni; è la trasparenza a governare il nostro lavoro.

CE - UNI EN ISO 9001 - ISO 14001 - ISO 13485 - ETL - UL LISTED - EAC - ENERGY STAR - TRANSIT TESTED

# Energy saving 41%

Respect for the environment is in DNA of Desmon and confirmed by decades of continuous improvement and implementation of environmentally efficient production processes. Desmon is always careful on every single step of a product life cycle, from design to disposal, having in mind an intention to reduce an impact on environment and create benefits for customers from decreasing energy costs. Desmon has obtained ISO-14001 certificate for a commitment to respect an environment on every stage of business activity.

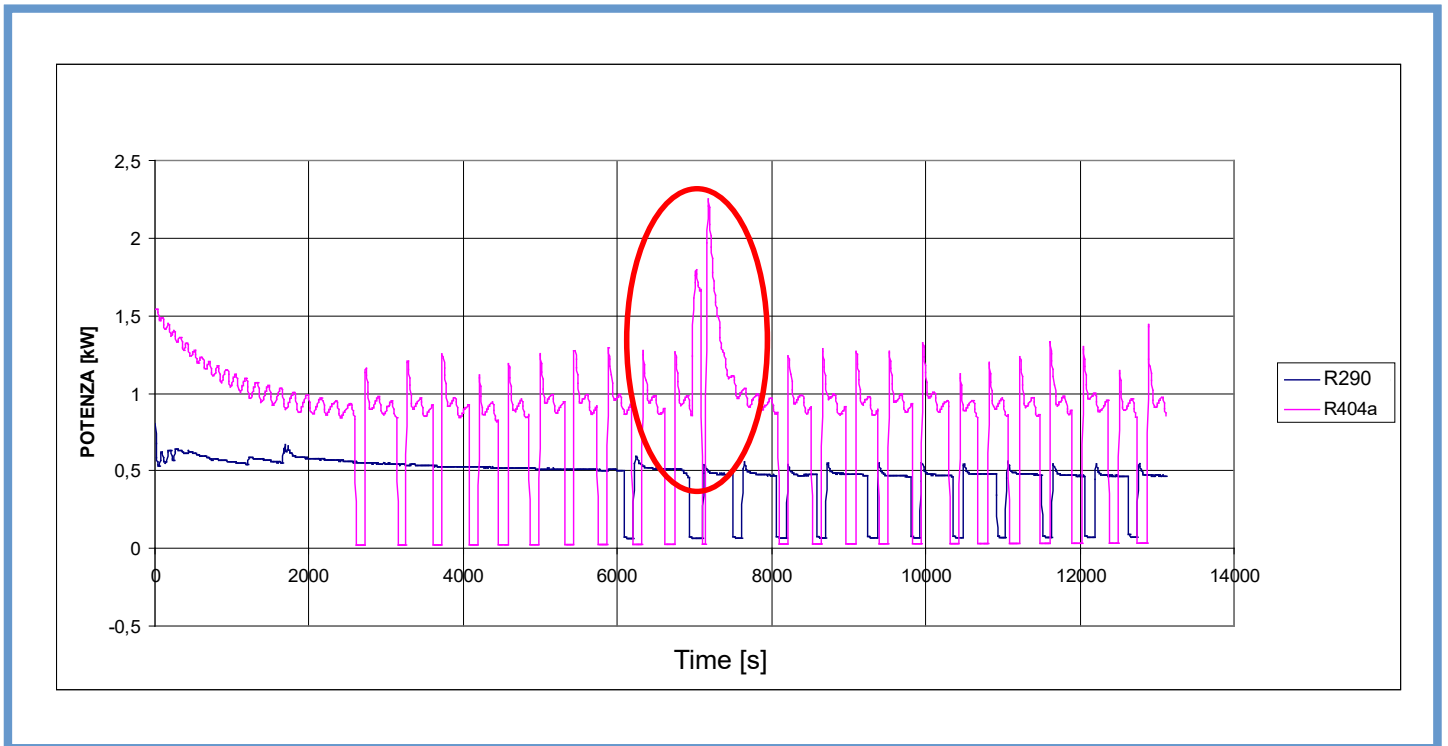

Desmon is one of manufacturer of commercial refrigeration in the world using cyclopentane. Desmon products have a Cyclopentane thermoinsulation which does not damage an ozone layer and does not make a greenhouse effect. Cyclopentane replaces Cyclopentane foams based on HCFCs and CFCs which destroy an ozone layer and generate the greenhouse effect.

Desmon is constantly searching for new solutions to create products with a minimum negative impact on environment. Among those solutions Desmon develops a refrigeration units which use a natural gas R290 (propane) see IRIDIUM Line.

*Il rispetto per l'ambiente è da sempre nel DNA del Gruppo Desmon. Questa vocazione trova conferma in decenni di continuo impegno nella ricerca di processi produttivi efficienti nel rispetto dell'ambiente. La Desmon è da sempre attenta a ciascuna fase del ciclo di vita dei propri prodotti, dalla progettazione allo smaltimento, con l'obiettivo di ridurre al minimo l'impatto ambientale e di incrementare i benefici per il Cliente (minori costi energetici). A prova dell'impegno costante, Desmon ha ottenuto la certificazione ISO 14001. La salvaguardia dell'ambiente è talmente sentito in Desmon che coinvolge ogni singola attività aziendale e tutte le varie fasi del ciclo vitale del prodotto.*

*Desmon è stata tra le prime aziende al mondo ad utilizzare la schiuma al ciclopentano per l'isolamento termico dei propri prodotti, un gas che non danneggia l'ozono e non produce effetto serra. Il ciclopentano sostituisce le schiume poliuretaniche basate su HCFC e CFC, estremamente nocive per l'ambiente.*

*Desmon è costantemente alla ricerca di nuove soluzioni per creare prodotti che abbiano il minimo impatto ambientale. Tra queste soluzioni Desmon ha sviluppato unità di refrigerazione che utilizzano un gas naturale R290 vedi Linea IRIDIUM.*

Test conditions:

- Ambient Temperature: 25°C/77°F
- Humidity: 80%
- # of door openings: 250 (from 7am to 11pm)
- \*Simulation on Year base: (2,744Kw/365days)
- Cost of Kw/h in Italy: € 0,17

By integrating the two powers absorbed in the entire range of test results, we show below the values of electricity absorbed by two units:

Energy consumption of traditional unit: 18,40 kWh/24h

Energy consumption of R290 unit : 10,80 kWh/24h

$$\frac{18,40 - 10,80}{18,40} * 100 = 41\%$$

## Annual savings on energy consumption € 470

# DESMON

## DVC Technology

Revolutionary technology for thermal insulation, which allows an energy saving of

**-38% in storage**

**-43% in Freezing**

Increases the effectiveness of the thermal insulation of 100%.

Aumenta notevolmente l'efficacia dell'isolamento termico, portando un risparmio energetico del 38% in conservazione e del 43% in congelamento.

**Increase price list of 25%**  
**Incrementare il prezzo di listino del 25%**

DVC is an innovative insulation system alternative to Cyclopentane foam, consisting of panels containing insulating material in powder under vacuum. In this way you get a thermal insulation of refrigerators, freezers and blast chillers. Advantages: The insulation system is obtained by DVC allows to obtain reductions in energy consumption in the order of 40% compared to traditional Cyclopentane insulation system under equal conditions of isolation. Besides the significant energy saving technology DVC allows to reduce the use of Cyclopentane for thermal insulation, and this positively affects reducing emissions of cyclopentane in the atmosphere during the foaming. In conclusion DVC technology allows to safeguard the environment both by reducing CO2 emissions during operation of the final product, both HCFC emissions during production of the same, and at the same time allows the product to have an energy efficiency greater.

### Innovativo sistema di isolamento termico che assicura un risparmio energetico fino al 43%

DVC è un innovativo sistema di isolamento alternativo alla schiuma poliuretanic, costituito da pannelli contenenti materiale isolante in polvere sotto vuoto. In questo modo si ottiene un'isolamento termico ad alto rendimento per Frigoriferi, congelatori ed abbattitori rapidi di temperatura. Vantaggi: Il sistema di isolamento ottenuto mediante DVC permette di ottenere riduzioni dei consumi energetici nell'ordine del 40% rispetto al sistema di isolamento tradizionale a poliuretano a parità di condizioni di isolamento. Oltre al notevole risparmio energetico la tecnologia DVC consente di ridurre l'utilizzo di poliuretano per l'isolamento termico e ciò incide positivamente riducendo le emissioni di ciclopentano in atmosfera in fase di schiumatura. In conclusione la tecnologia DVC permette di salvaguardare l'ambiente sia riducendo le emissioni di CO2 in fase di funzionamento del prodotto finale, sia le emissioni di HCFC in fase di produzione dello stesso, ed allo stesso tempo consente al prodotto di avere un'efficienza energetica maggiore.

# DESMON

## ACS Technology

Awarded for innovative solution in the industry at Host 2015 with

### CHEST CHILLER WITH AUTONOMOUS COOLING SYSTEM

Chest chiller with Autonomous Cooling System (ACS) for preserving fruit, vegetables and fishes. The principle of operation is based on the system's ability to accumulate the thermal energy needed for operation without electricity, by freezing an eutectic solution with a condensing unit through which circulates the refrigerant into the ACS, that will represent a temporary storage of cold energy and it compensates the gap between energy availability and cooling need. The fusion of the thermal mass (latent heat) of the eutectic solution, provides the necessary energy. The innovation consists in having obtained a uniform distribution of temperature in the order of +/- 0,3°C, so as to guarantee to the food a meaningful lengthening of the life cycle, thanks to the use of special plates containing a high performant eutectic liquid and designed in a modular system made of aluminium profile and serpentine in Aisi304 that allow to dimension adequately the . In addition the combined use of vacuum insulated Panels and Cyclopentane (cyclopentane) with cyclopentane (DVC Technology) allows to reach a very low value of the transmission heat, which ensures a reduction in heat loss over traditional insulation to the benefit of energy savings and autonomy of the refrigerator without the use of power for a period of time that can vary, depending on the installed thermal capacity. In our case the autonomy for thermal storage according ATP standard (+ 30 °C) corresponds to 120 hours.

### FRIGORIFERO A POZZETTO CON REFRIGERAZIONE AUTONOMA

Frigorifero a pozzetto con refrigerazione autonoma (ACS) per ortofrutti e pescherecci. Il principio di funzionamento si basa sulla capacità del sistema di accumulare l'energia termica necessaria per il funzionamento autonomo (in assenza di elettricità) mediante congelamento di una soluzione eutettica preventivamente effettuato dall'unità condensante grazie alla quale circola il fluido frigorifero. La fusione della massa termica (calore latente) della soluzione eutettica, fornisce l'energia necessaria. L'innovazione consiste nell'aver ottenuto una distribuzione della temperatura uniforme con gradienti verificati dell'ordine di +/-0,3°C, si da garantire agli alimenti un deciso allungamento del ciclo vita, grazie a delle speciali piastre contenenti soluzione eutettica ad alte prestazioni concepite in modo modulare e costituite da profilati in Al estruso e serpentine in Aisi304 che consentono di dimensionare la capacità frigorifera in modo adeguato. Inoltre, l'utilizzo della DCV Technology (Vacuum insulated Panels combinati con Poliuretano espanso a ciclopentano) consente di raggiungere valori di conducibilità termica molto bassi, il che garantisce una riduzione della dispersione termica rispetto ai normali isolanti a vantaggio del risparmio energetico e dell'autonomia del frigorifero senza utilizzo di rete elettrica per un arco temporale variabile a seconda della capacità termica installata. Nel caso in oggetto l'autonomia termica per conservazione in condizioni ATP (+30°C) corrisponde a 120 ore.

## STANDARD FEATURES:

Designed with enduring quality that will improve the efficiency and production of your activity. Constructed with stainless steel AISI 304 interior & exterior.

## INTERIOR and EXTERIOR

Durable, s/s AISI 304 stainless steel. Rounded corner.

## CABINET MATERIAL

20 gauge polished exterior and 24 gauge interior.

## BASE FRAME

12 gauge s/s full depth caster bolsters with 1"x1" ; 14 gauge s/s perimeter .

## DOOR

Foamed double panel s/s. 20 gauge polished exterior and 24 gauge interior. Filled with 2" thick high density PU. Push -fit magnetic door seal.

## HINGES

3 chrome plated hinges.

## LATCH

Flush mounted heavy-duty sliding latch with grip handle.

## BUMPER

Non-marking gray vinyl bumper set in heavy-duty 3/16" thick s/s frame with reinforced corner cutouts.

## REFRIGERANT SYSTEM / GAS

Conventional refrigeration system .

Auto defrost.

Water condensing tray.

Environmentally friendly R404a. refrigerant gas.

## CASTERS

Two swivel and two rigid casters (5" diameter). Sealed roller bearing and double ball bearing swivel. Plate mounted and blted to base in offset, wheel-ahead pattern. Two casters fitted with brakes.

## ON / OFF SWITCH

Toggle style with guard.

## TEMPERATURE CONTROLLER

Digital control with 3 DIGITS

## INSULATION

Cyclopentane High density foamed in place environmentally friendly.

2" thick high density.

Lambda value : 0,021 W/mK

Maximum ambient temperature recommended is 35°C (95°F)

Kyoto Protocol Compliant:

Zero ODP (Ozone Depletion Potential)

Zero GWP (Global Warming Potential) polyurethane keeps energy costs low.

## KNOCKING DOWN

Risparmia sul costo di trasporto con i prodotti Modulari Desmon. Questi prodotti vengono spediti smontati per essere assemblati nel luogo di destinazione. Così i costi di trasporto e di stoccaggio possono essere ridotti sino al 50%. Questi prodotti possono essere installati in aree dove sarebbe molto difficile accedere con prodotti già montati: Possono essere trasportati con facilità pezzo per pezzo ed assemblati nel luogo dove saranno utilizzati

Save on shipping costs with Desmon's Modular Refrigeration. These units are shipped in a flat pack and are not assembled until they arrive at their final destination. This can reduce shipping and storage costs by up to 50%

Install refrigeration units in areas that previously would have been impossible to access. Move your modular units in one piece at a time and build them up where they will be finally used.

## ROLL-IN/ROLL-TRHU

Spessore da 80 mm su tutta la scocca.

Insulation thickness 80 mm CFC & HCFC free.

Unità refrigerante a monoblocco per sfruttare tutta la capacità di stoccaggio.

Compact Refrigeration System featuring designed to maximise available capacity.

Cruscotto incernierato per consentire facile accesso alle parti elettriche ed all'unità motocondensante.

Hinged control panel for service access

Gurnizioni removibili per una facile pulizia

Wide magnetic gasket gives effective seal and is removable for easy cleaning

Esterno in acciaio inox Aisi 304. A richiesta schienale in acciaio per installazione ad isola.

304 Grade in Stainless steel exterior. Complete stainless steel back option for island siting.

Interno in acciaio Aisi 304. Angoli interni arrotondati.

Interior Stainless Steel AISI 304. Rounded corner internal for easy cleaning

Serratura di serie

Door lock as standard

Luce LED interna di serie

Interior LED light as standard

## PDUC SERIES UNDERCOUNTER

PDUC27 - PDUC27F PDUC32 - PDUC32F PDUC48 - PDUC48F PDUC60 PDUC72

INTERIOR and EXTERIOR  
Durable, S/B AISI 304 stainless steel.

SHELVING  
One epoxy coated wire shelf standard,  
installed per door section.

TEMPERATURE CONTROLLER  
Digital

DESIGN  
Desmon counters are manufactured in Italy with enduring ergonomic features to protect your long term investment. Designed using the highest technologies, quality materials and components to provide the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service market place.

REFRIGERATION SYSTEM  
• Factory engineered, self-contained, capillary tube system using environmentally friendly (CFC free) R290 refrigerant.  
• Evaporator coil & condenser balanced for low power consumption - holding the widest temperature range in its class: Temperature Range, getting the best in food preservation:  
• Coolers adjustable from 28°F to 46°F (-2°C to +8°C).  
• Freezers adjustable from 14°F to -13°F (-10°C to -25°C).  
• Sealed, cast iron, self-lubricating evaporator fan motor(s) and larger fan blades with a more efficient low velocity, high volume airflow design. Ensuring faster temperature recovery and shorter run times in the busiest of food service environments.

DOORS  
• Stainless steel exterior and interior. •Door extends full width of cabinet shell.  
• Guaranteed door handle.  
• Positive seal self-closing door (Gold line).  
• Guaranteed door hinges and torsion type closure system (On Gold line).  
• Magnetic door gasket of one piece construction, removable without tools for ease of cleaning.

SHELVING  
• GN 1/1 Version: Adjustable, heavy duty PVC coated wire 20 43/50"L x 12 19/32 "D (530mm x 325mm).  
Two (2) guides included per shelf.  
Pastry Version: Adjustable, heavy duty pan or PVC coated shelf 23 5/8"L x 15 3/4 "D

LIGHTING  
Lights on doors available on certain models.

MODEL FEATURES  
• Exterior temperature digital display adjustable with alarm and HACCP advanced control unit standard on every GOLD models.  
• Evaporator is epoxy coated to eliminate the potential of corrosion.  
• ETL Sanitation and CE "Rounded Corners" compliant for open food product.

ELECTRICAL  
• Unit completely pre-wired at factory and ready for final connection to a dedicated outlet. Cord and plug set included: Voltages: 115V/60Hz/1 phase -15/20 amp or 230V/50Hz/1 phase -16 amp or 230V/60 Hz – 16 amp

CABINET CONSTRUCTION  
All made in stainless steel, not only on solid doors and front side as other manufacturers. The finest stainless available; latest generation, higher tensile strength for fewer dents and scratches. (External bottom in galvanized steel – Aluminium inside on some Basic versions).  
• Higher insulation rates thanks to high-tech environmentally friendly CFC free, Cyclopentane foaming keeping insulation properties longer than other foams.  
• Panel thickness 2" (Basic & Silver) 2½" (Gold) instead of average 2" on other brands.  
• Interior - attractive, ETL Sanitation & CE

## CHEF BASES US STANDARD

### STANDARD FEATURES

- Self-closing heavy-duty drawers slide on stainless steel rollers
- Drawers hold standard sized GN 1/1(12"x20"x4") pans
- Pans not included
- CFC-free refrigeration system has an expansion valve for rapid temperature recovery
- Foamed-in-place CFC-free Cyclopentane insulation provides highest insulation factor available
- Rubber magnetic door gaskets provide a positive seal and easy cleaning
- The top, front, sides, back, drawers, and interior cavity are made of stainless steel
- Adjustable stainless steel legs as standard - available also with castors with same price
- Interior corners are covered for easy cleaning
- Condensate evaporator pan is standard (72", 84", 96", 108" & 120" only).
- Adjustable digital thermostat
- Mullion coils are coated to resist corrosion and provide maximum air flow for even cooling

### CARATTERISTICHE TECNICHE

- Cassetto autochiudente (ultimo centimetro della corsa) montato su robuste guide scorevvoli
- Telaio cassetto adatto ad ospitare bacinelle dim GN 1/1 (12"x20"x4")
- Impianto refrigerante con espansione a valvola termostatica
- Schiumatura con espandente Cyclopentane
- Guarnizione cassette con contromagnete per una perfetta chiusura
- Interno ed esterno realizzati in Acciaio Inox AISI304
- Piedi inox regolabili in altezza o ruote (stesso prezzo)
- Angoli interni arrotondati per facilitare le operazioni di pulizia
- Evaporazione automatica acqua di condensa a gas caldo su tutti i modelli, resistenza elettrica su modelli remote
- Controllore digitale
- Interno ed esterno realizzati in Acciaio Inox AISI304
- Telaio cassetto adatto ad ospitare bacinelle dim 30,5x66x1h (12"x20"x4")
- Cassetto removibile
- Chef base con motore a bordo: profondità 82,5cm ed altezza 66cm
- Gas refrigerante: R404a

### CONSTRUCTION SPECIFICATIONS

Exterior Finish: Top, front, sides, back, drawers, and interior cavity are 304 stainless steel #3 polish.

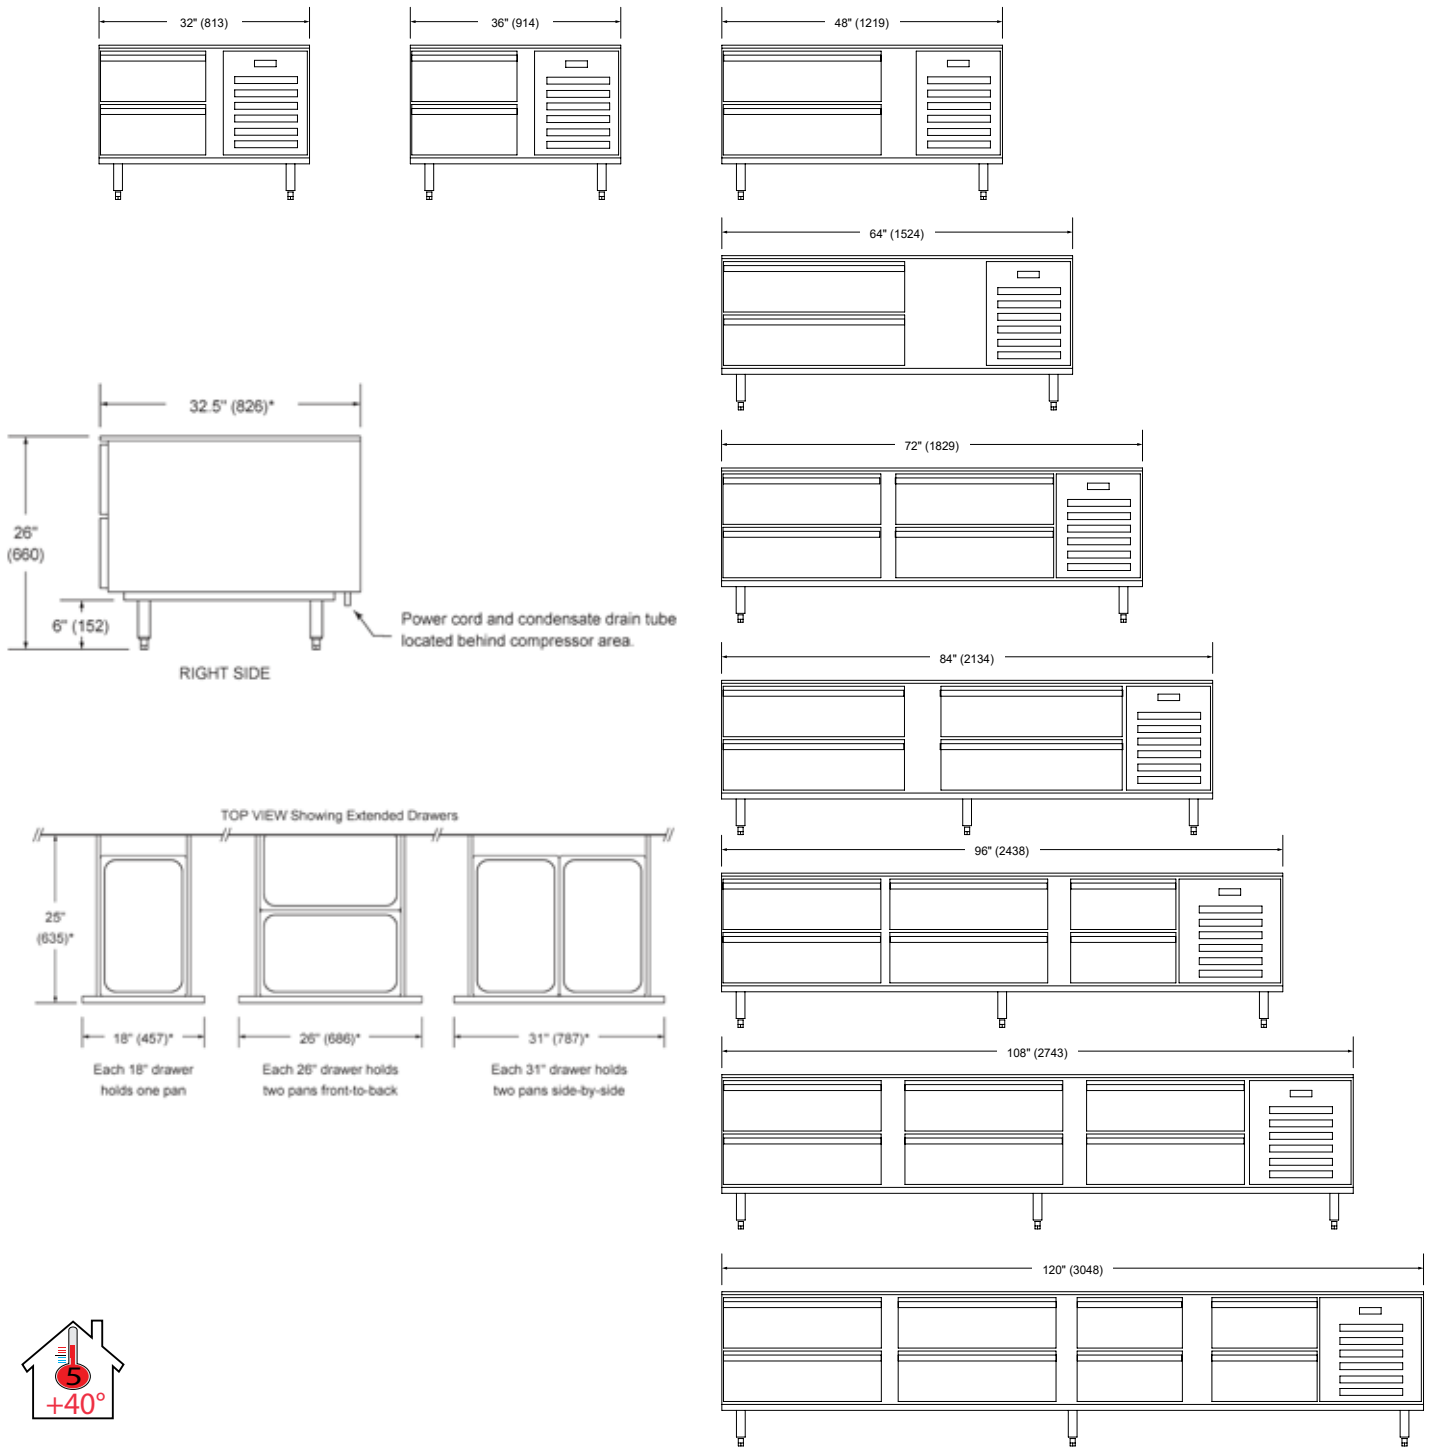

Drawers: Stainless steel -hold standard size 30,5x66x16 cm (12" x 20" x 4") pans -not included.

Removable drawer assembly. Base: Self-contained, 32-1/2" deep and 26" high, including adjustable legs or casters

Refrigerant: R-404a -CFC-free

## KNOCKING DOWN

Risparmia sul costo di trasporto con i prodotti Modulari Desmon. Questi prodotti vengono spediti smontati per essere assemblati nel luogo di destinazione. Così i costi di trasporto e di stoccaggio possono essere ridotti sino al 50%. Questi prodotti possono essere installati in aree dove sarebbe molto difficile accedere con prodotti già montati: Possono essere trasportati con facilità pezzo per pezzo ed assemblati nel luogo dove saranno utilizzati

Save on shipping costs with Desmon's Modular Refrigeration. These units are shipped in a flat pack and are not assembled until they arrive at their final destination. This can reduce shipping and storage costs by up to 50%. Install refrigeration units in areas that previously would have been impossible to access. Move your modular units in one piece at a time and build them up where they will be finally used.

### CARATTERISTICHE

- Facili da trasportare e da assemblare
  - Interno ed esterno realizzato in Acciaio AISI 304
  - Angoli interni arrotondati per una facile pulizia ed una perfetta igiene
  - 60 mm di spessore sull'intera scocca
- H.A.C.C.P. di serie su tutti i modelli

### STANDARD FEATURES AND BENEFITS:

- Comes flat packed and easy to assemble
- Both external and internal surfaces are constructed from Stainless Steel AISI 304
- Internal covered Stainless Steel surface allows for easy cleaning and maintenance
- 60mm high density Cyclopentane foam insulation (CFC & HCFC Free)
- Constructed with kitchen efficiency in mind
- All High Line Refrigeration comes standard with H.A.C.C.P. system

 Questi accessori possono essere ordinati esclusivamente insieme al prodotto a cui si riferiscono, e non possono essere ordinati separatamente. I prezzi degli accessori, indicati in questo listino, sono solo incrementi e non normali prezzi di vendita. Per ordini separati è necessario consultare il listino ricambi non incluso in questo catalogo.

 Those options are to be ordered only at the moment of ordering a corresponding model and it is impossible to order them separately. The price of the accessories represents only the price increasing and it isn't the accessories price list. To order other accessories, please, check a separate "Spare parts list price".

 Dieses Zubehör kann nur ausschließlich in Phase der Bestellung des Produktes bestellt werden, auf die sie sich beziehen, und können nicht separat bestellt werden. Für die Bestellung von Ersatzteilen ist der Ersatzteilkatalog zu konsultieren der nicht in diesem Listenpreis beigefügt ist.

 Estos accesorios se pueden ordenar exclusivamente en fase de pedido del producto al que se refieren, y no se pueden pedir separadamente. Los precios de los accesorios, indicados en este listín, son sólo incrementos y no normales precios de venta. Por pedidos separados es necesario consultar el listín accesorios no incluido en este listín.

 Эти аксессуары должны быть заказаны вместе с основными моделями и не могут поставляться отдельно. В случае заказа этих опций к цене основной модели надо будет добавить цену опции. Для заказа остальных аксессуаров и запасных частей, пожалуйста, смотрите отдельный прайс-лист «аксессуары».

## Accessori -Accessories -Accessoires -Zubehör Accesorios -Seçenekleri -Доп. опция

Questi accessori possono essere ordinati esclusivamente insieme al prodotto a cui si riferiscono, e non possono essere ordinati separatamente. I prezzi degli accessori, indicati in questo listino, sono solo incrementi e non normali prezzi di vendita. Per ordini separati è necessario consultare il listino ricambi non incluso in questo catalogo.

Those options are to be ordered only at the moment of ordering a corresponding model and it is impossible to order them separately. The price of the accessories represents only the price increasing and isn't the accessories price list. To order other accessories, please, check a separate "Spare parts list price".

Ces accessoires ne peuvent être commandés à ce prix qu'avec le meuble, et ne peuvent pas l'être séparément. Pour commande séparée uniquement d'accessoires, il est nécessaire de consulter le tarif pièces détachées non inclu dans ce catalogue.

Dieses Zubehör kann nur ausschließlich in Phase der Bestellung des Produktes bestellt werden, auf die sie sich beziehen, und können nicht separat bestellt werden. Für die Bestellung von Ersatzteilen ist der Ersatzteilkatalog zu konsultieren der nicht in diesem Listenpreis beigefügt ist.

Estos accesorios se pueden ordenar exclusivamente en fase de pedido del producto al que se refieren, y no se pueden pedir separadamente. Los precios de los accesorios, indicados en este listín, son sólo incrementos y no normales precios de venta. Por pedidos separados es necesario consultar el listín accesorios no incluido en este listín.

Buu katalogda gösterilen aksesuar fiyatları sadece katalog fiyatlarıdır, normal satış fiyatları değildir. Ayrı siparişler için, bu kataloga dahil olmayan Yedek Parça Fiyat Listesi kullanılmalıdır.

Эти аксессуары должны быть заказаны вместе с основными моделями и не могут поставяться отдельно. В случае заказа этих опций к цене основной модели надо будет добавить цену опции. Для заказа остальных аксессуаров и запасных частей, пожалуйста, смотрите отдельный прайс-лист «аксессуары».

#### 1. Premessa

Le presenti Condizioni di Vendita formano parte integrante di ogni e qualsiasi offerta o accordo per la vendita di beni da parte di Desmon. Qualsiasi sola proposta dal Compratore nel suo ordine o altrove avrà effetto solamente se espressamente accettata da Desmon per iscritto. Desmon confermerà l'ordine del Compratore con una Conferma d'Ordine e il contratto verrà in essere solamente a seguito dell' emissione della suddetta Conferma d'Ordine .

#### 2. Offerte

Un'offerta emessa da Desmon è valida per un periodo di 15 (quindici) giorni, a meno che l'offerta stessa non stabilisca espressamente altrimenti. Desmon può sempre revocare una sua offerta precedentemente alla ricezione dell'accettazione da parte del Compratore.

#### 3. Prezzi

I Prezzi dei Prodotti sono indicati nella Conferma d'Ordine.

I Prezzi, salvo diversamente indicato nella Conferma d'Ordine, non comprendono le spese di trasporto, così come gli oneri fiscali e qualsiasi altra spesa accessoria al Contratto, le quali sono interamente a carico del Compratore, in aggiunta al prezzo.

Salvo diversamente indicato nella Conferma d'Ordine, la tipologia di imballaggio sarà quella generalmente utilizzata da Desmon.

#### 4. Selezione dei Prodotti

Ove Desmon fornisca suggerimenti circa la scelta dei Prodotti o altre consulenze simili, esse vengono date gratuitamente e senza alcun impegno, dichiarazione o garanzia da parte di Desmon, che non sarà soggetta riguardo ad esse ad alcuna responsabilità né compensatoria né risarcitoria, né diretta né indiretta.

#### 5. Specifiche

I Prodotti venduti saranno conformi alle specifiche pattuite. Se non sono state pattuite specifiche, allora i Prodotti venduti saranno conformi alle specifiche generali di Desmon in vigore al momento della consegna. Eventuali dichiarazioni contenute in informative sui Prodotti, manuali, siti internet, listini prezzi o in altre informative comunque concernenti i Prodotti, saranno vincolanti per Desmon solamente nel caso in cui esse vengano espressamente richiamate in un' offerta o in una Conferma d'Ordine.

Desmon si riserva di apportare a tali dati tecnici, in qualunque momento, senza preavviso, quelle modifiche non sostanziali che ritenesse utili e modificative del Prodotto.

#### 6. Consegna

Per data pattuita di consegna si intende la data in cui i Prodotti saranno pronti per la spedizione da parte di Desmon.

Il Termine di Consegna indicato nella Conferma d'Ordine ha natura indicativa e non esclusiva.

La merce viaggia sempre a rischio e pericolo del Compratore anche se venduta "Franco Destino" e non viene assicurata salvo esplicito incarico del Compratore. La consegna si considera effettuata al momento del carico da parte del Compratore medesimo o di un vettore incaricato dal Compratore, con la conseguenza che resta tassativamente esclusa qualsiasi responsabilità della Desmon per eventuali differenze e/o vizi riscontrati dopo l'uscita dei Prodotti dallo stabilimento di Desmon. Nel caso in cui non siano state pattuite le Condizioni di consegna allora si applicheranno le Condizioni Franco Stabilimento (EXW – Incoterms 2000) riferite allo stabilimento Desmon.

Qualora la consegna dovesse essere ritardata per più di 2 settimane, il Compratore avrà, come unico rimedio a sua disposizione, il diritto di recedere dal contratto mediante una comunicazione scritta a Desmon, cancellando così l'acquisto delle merci soggette a ritardo. È esclusa qualsiasi responsabilità di Desmon per qualsivoglia danno derivante dalla mancata consegna dei Prodotti entro il Termine di Consegna.

#### 7. Garanzie

Desmon garantisce tutte le Parti componenti delle apparecchiature, escluse le Parti elettriche, per un periodo di 24 mesi dalla data di consegna. Per questo fa fede solo il documento di trasporto emesso dalla società Desmon.

Non sono coperte da garanzia tutte le parti che dovessero risultare difettose a causa di negligenza o trascuratezza nell'uso, di errata installazione o manutenzione, modifiche o manutenzioni arbitrarie, di manutenzioni operate da personale non autorizzato, installazione in locali o situazioni non idonee, danni di trasporto, ovvero, infine, di circostanze che comunque, non possono risalire a difetti di fabbricazione dei componenti. Sono altresì esclusi dalle prestazioni in garanzia gli interventi tecnici inerenti l'installazione e l'allacciamento agli impianti di alimentazione.

Desmon declina ogni responsabilità per eventuali danni che possano, direttamente o indirettamente, derivare a persone, animali domestici o cose in conseguenza della mancata osservanza di tutte le prescrizioni indicate nell'apposito "Manuale d'Istruzione" e concernenti specialmente le avvertenze in tema di installazione, uso e manutenzione dell'apparecchio, in caso di avarie o forzata sospensione d'uso del Prodotto. Inoltre anche nel caso in cui il personale addetto non sia preventivamente e adeguatamente

informato sulla normativa in vigore in tema di "Sicurezza sul lavoro" ed eventualmente fornito degli adeguati dispositivi di protezione individuale.

La spedizione dei pezzi in garanzia avverrà in porto assegnato; saranno regolarmente fatturati. Al ricevimento dei pezzi di cui è stata richiesta la sostituzione si provvederà ad emettere relativa nota di accredito.

Qualora i Prodotti dovessero risultare "difettosi", il Compratore sarà tenuto a denunciare i vizi per iscritto a Desmon – a pena di decadenza e con indicazione dettagliata dei vizi e non conformità contestate – entro e non oltre 8 giorni dall'arrivo dei Prodotti in caso di vizio facilmente riconoscibile; ovvero dalla scoperta del vizio, in caso di vizio occulto (purché non siano trascorsi due anni dalla data di consegna). In caso di denuncia tardiva (o comunque effettuata quando siano trascorsi più di 2 anni dalla data di Consegna) il Compratore decadrà dal diritto alla garanzia per i vizi dei Prodotti venduti.

Ove, a seguito della denuncia da parte del Compratore nei termini previsti, i Prodotti dovessero risultare affetti da vizi e/o carenze quantitative, Desmon potrà, a sua scelta ed entro un termine ragionevole: correggere il difetto, fornire gratuitamente Franco Stabilimento Desmon al Compratore Prodotti dello stesso genere di quelli risultati difettosi, potendo esigere la resa dei Prodotti difettosi; o con riferimento alle carenze quantitative, consegnare la quantità mancante come originariamente convenuto, ovvero riconoscere al Compratore la diminuzione del prezzo dei Prodotti in proporzione al difetto. Fermi restando i termini di decadenza per la denuncia dei vizi e delle carenze quantitative, l'azione per ottenere i rimedi si prescrive in ogni caso in due anni dalla data di Consegna dei Prodotti.

Le merci vendute come non di prima scelta o altre espressioni simili, si intendono vendute "tale quale". In tal caso pertanto, ogni diritto rimedi o risarcimenti in caso di difetti è esplicitamente rinunciato salvo relativamente alle specifiche espressamente pattuite.

#### 8. Riserva di proprietà.

Qualora sia convenuto che il pagamento del prezzo avvenga, in tutto o in parte, successivamente alla consegna dei Prodotti, viene espressamente pattuito che i Prodotti rimarranno di proprietà di Desmon fino al pagamento del saldo.

Il mancato pagamento di una sola rata determina, a scelta di Desmon la decadenza del beneficio del termine in relazione alle rate successive; o la risoluzione di diritto del contratto ex. Art. 1456 c.c., a seguito della comunicazione da parte di Desmon della propria intenzione di valersi di tale clausola risolutiva; in tal caso si considererà risolto anche ogni altro contratto concluso tra Desmon e il Compratore relativamente alla fornitura di Prodotti; Desmon non sarà quindi obbligata a dare esecuzione agli altri ordini ricevuti dal Compratore né di spedire i Prodotti di cui agli ordini in corso di esecuzione, rinunciando il Compratore fin d'ora ad avanzare pretese di alcun titolo o richiedere indennizzi. In caso di risoluzione del Contratto, Desmon avrà il diritto di ottenere la restituzione dei Prodotti e di trattenere la parte di prezzo fino ad allora riscossa a titolo di indennità, fatto salvo il diritto di ottenere il risarcimento del maggior danno.

#### 9. Pagamenti.

Le Condizioni di Vendita e le modalità di pagamento del prezzo e dei relativi accessori sono indicate nella Conferma d'Ordine e/o nella fattura di vendita. L'eventuale pagamento a mezzo di ricevute bancarie ovvero di tratta, o di fatture, assegni o altri titoli di credito di intenderà accettato salvo buon fine al solo scopo di facilitare la riscossione del contratto e in caso di insoluto non varrà a spostare il luogo di adempimento che rimane sempre la sede della nostra società.

Nel caso in cui a Desmon sia per qualsiasi motivo richiesto di pagare l'IVA del compratore e sanzioni relative all'IVA (come ad esempio nel caso in cui il compratore non esporti le merci o non fornisca la Partita iva corretta), allora il compratore dovrà rimborsare a Desmon i detti costi, maggiorati, rispetto ai pagamenti fatti da Desmon, degli interessi di mora indicati di seguito.

Nel caso in cui il Compratore non abbia pagato tempestivamente, il Compratore dovrà pagare gli interessi di mora sulla somma non pagata al tasso annuo del 7 per cento al di sopra del tasso EURIBOR a tre mesi ( Tasso Interbancario di Offerta in Euro) che saranno dovuti dalla data in cui il pagamento avrebbe dovuto avere luogo al saldo.

#### 10. Intero contratto.

Le presenti Condizioni di Vendita, la Conferma d'Ordine con i suoi allegati e tutte le eventuali modifiche concordate per iscritto, costituiscono l'intero

#### 11. Legge applicabile.

Il contratto tra Desmon ed il Compratore è disciplinato dalla Legge Italiana. Ogni controversia relativa all'esecuzione, interpretazione e violazione del Contratto ovvero all'interpretazione e applicazione delle clausole contenute nelle presenti Condizioni è devoluta alla competenza esclusiva del Foro di Avellino.

### 1. Introduction

These Conditions of Sale shall form an integral part of all offers and agreements for the sale of goods by Desmon S.p.A. Any condition put forward by the Buyer in his order or otherwise will only have effect if accepted by Desmon S.p.A. in writing. Desmon S.p.A. will confirm the Buyer's orders by an order acknowledgment and an agreement will be concluded only upon the issue of the order acknowledgment.

### 2. Offers

A Desmon offer is valid for 15 days from its date of issue, unless otherwise expressly stated in the offer. Desmon S.p.A. may revoke any offer at any time prior to receiving the Buyer's acceptance.

### 3. Pricing

Product prices will be listed in the Order Confirmation. Prices, unless otherwise specified in the Order Confirmation, do not include: shipping charges, as well as taxes and additional charges which are paid by the Buyer, in addition to price.

Unless otherwise indicated in the Order Confirmation, the packaging type will be the one always used by Desmon S.p.A.

### 4. Material selection

In the event Desmon S.p.A. gives any advice on material selection or other similar assistance, it's given free of charge without any undertaking, representation or warranty and Desmon S.p.A. shall have no liability – neither compensatory nor consequential – for any such advice or assistance.

### 5. Specifications

The goods shall meet the agreed specifications. If no specifications are agreed, the Products shall meet the standard manufacturing specifications of Desmon S.p.A. at the time of delivery. Statements presented in the product information, handbooks, web sites, price lists or other information regarding the goods will be binding on Desmon S.p.A. only if expressly referred to an offer or Acknowledge.

Desmon S.p.A. reserves the right to make non-substantial changes to such technical data on Products at any time, without notice, if modifications were considered necessary.

### 6. Delivery

The agreed delivery time means the date on which the goods shall be ready for Ex-Works dispatch from Desmon S.p.A.. The time of delivery indicated in the Order Confirmation is only indicative and not strict. Goods will be travelling for account and risk of the Buyer, even if sold like "Delivered At Placer" (DAP) and they will not insured without express Buyer's appointment. Delivery shall be deemed done by the time of loading at our warehouses, by the Buyer himself or by any commissioned carrier, with the result that Desmon S.p.A. remains absolutely excluded from all liability, differences and/or defects found on cargo after releasing the Products from our facilities. If there are no other agreed delivery terms shall apply as preferred choice Ex Works (incoterms 2000) used by Desmon S.p.A. If the delivery be delayed by more than 2 weeks, the Buyer as the sole remedy, be entitled to terminate and cancel the purchase of the goods delayed by giving written notice thereof to Desmon S.p.A.. Desmon S.p.A. is free of any liability on damages resulting from the non-delivery of the Products within their scheduled Delivery Time.

### 7. Warranty and/or Shortages

Desmon S.p.A. guarantees all components on their products, excluding electrical parts, for a 24 month from the date of delivery. The only proof of delivery are the transportation documents issued by Desmon.

Are not covered by the warranty: all parts that may be defective due to negligence or careless use, incorrect installation or maintenance, alteration or arbitrary maintenance, maintenance operations conducted by unauthorized personnel, or installation in unsuitable situations, damage in freight or on any other means of transportation, or, finally, in further circumstances which may not being considered as manufacturing defects of components. Are also excluded from our warranty further operations pertaining to installation and plug-in to the power or other supplies.

Desmon S.p.A. disclaims any further liability cause by any damage that directly or indirectly may be caused to persons, domestic animals or properties due to failure to observe all the prescriptions indicated in the "Manual of Instructions" and especially on warnings regarding installation, use and maintenance of the appliance in the event of failures or forced suspension on using the Product. Moreover, when the user not followed any safety rules, because not adequately informed about the "safety in the job place" and eventually even not provided of the appropriate protective garment.

The shipment of the parts on warranty will be in the assigned port and will be regularly invoiced. Upon reception of the parts replaced on warranty, Desmon S.p.A. will issue a credit note to the buyer.

If the products were returned because defective or not working, the Buyer will be required to report their defective state by written communication to Desmon S.p.A. – providing detailed description of all defects and/or noncompliance claimed - no later than 8 days before the arrival of the products in the event of easily recognizable vices; or since the discovery of the defect in case of hidden defects (unless are passed two years from the date of delivery). In case of belated complaints (or more than 2 years from the delivery date) the Buyer lose the warranty claim rights for defects in our products.

In case of buyer complaints in due time, Desmon S.p.A. may, at its option and within a reasonable time: correct the defect or replace the part(s) or product(s) affected by defect(s) and/or shortages, with free part(s) or product(s) of the same kind, under Ex-Works delivery terms, being able to request the return of further defective part(s) or Product(s), or delivering the missing amount as originally agreed in case of quantitative deficiencies, or recognizing a price decrease to the Buyer commensurate to the defective state or shortage.

Without prejudice on the limitation periods for defect and shortcoming reporting, further warranty claim actions are prescribed within two years from the delivery date of the Products in any way

Products sold as non-prime or under similar description are sold "as is", which means that all rights to remedies and compensation for defects are waived unless such goods deviate from expressly agreed specifications.

### 8. Retention of title

If agreed that payment should be made, in whole or in part, after delivery of the Products, it is expressly agreed that all Products shall remain property of Desmon S.p.A. until the balance is paid.

The non-payment of just one instalment cause, at the discretion of Desmon S.p.A., the loss of the benefit of extension, or also the contract resolution under Art 1.456 (Italian civil law) if followed by a written advice from Desmon S.p.A. notifying its intention to invoke this termination clause, in this case any other contract between Desmon S.p.A. and the Buyer related to product supplies will be considered solved; Desmon S.p.A. will therefore not be required to complete other orders received by the Buyer or shipping Products referred to orders in progress, the Buyer renounce from now to any claim at any title or to require further compensations at this regard. In the event of contract resolution, Desmon S.p.A. shall keep the right to claim the return of the unpaid Products holding the paid portion as compensation, without withdrawing to the right to claim compensation for further extra costs.

### 9. Payments

The Conditions of Sale and payment terms for the price and its accessories are indicated in the Order Confirmation and/or in the sales invoice.

Any payment made by bank drafts, checks or other means of credit should be considered as accepted only subjected to a successful credit collection with the sole purpose of facilitating to cash the credits, in the event of unpaid credits the jurisdiction is that of our Company headquarters.

If Desmon S.p.A. for any reason has to pay Buyers VAT and VAT related penalties, the Buyer shall reimburse Desmon S.p.A. for these costs plus overdue interest as stated below in respect of Desmon's Payment thereof. If the Buyer has not paid in time, the Buyer shall pay overdue interest on the amount outstanding at a rate of 7 percent per annum above the three month Euribor (Euro Inter-Bank Offered Rate) from the due rate to the payment date.

### 10. Entire agreement

These Conditions of Sales, the Order Acknowledge with its enclosures and any amendments agreed in writing constitutes the entire agreement between the Parties.

### 11. Government law

The Agreement between Desmon S.p.A. and Buyer shall be governed by Italian law. Any dispute concerning the execution, interpretation and breach of the contract or the interpretation and application of what stated on these Terms and Conditions shall be referred under the exclusive jurisdiction of the Courts of Avellino, Italy.
